

WONDERKIDS

Finding Area by counting, Perimeter and Area

Class VII, Mathematics

Q1. What is the area of the shaded region? Assume each part of area 4 sq. units.

- A. 88 B. 12 C. 21 D. 71

Q2. What is the area of the shaded region? Assume each part of area 5 sq. units.

- A. 7 B. 0 C. 2 D. 9

Q3. What is the area of the shaded region? Assume each part of area 5 sq. units.

- A. 40 B. 4 C. 419 D. 400

Q4. What is the area of the shaded region? Assume each part of area 4 sq. units.

- A. 211 B. 112 C. 121 D. 617

Q5. What is the area of the shaded region? Assume each part of area 1 sq. units.

- A. 8 B. 7 C. 5 D. 9

Q6. What is the area of the shaded region? Assume each part of area 5 sq. units.

- A. 1 B. 0 C. 2 D. 3

Q7. What is the area of the shaded region? Assume each part of area 5 sq. units.

A. 38 B. 2 C. 96 D. 20

Q8. What is the area of the shaded region? Assume each part of area 1 sq. units.

A. 7 B. 3 C. 5 D. 4

Q9. What is the area of the shaded region? Assume each part of area 1 sq. units.

A. 1 B. 4 C. 2 D. 6

Q10. What is the area of the shaded region? Assume each part of area 5 sq. units.

A. 215 B. 898 C. 512 D. 125
